EDUCATION

EDUVOS

Bachelor of Information Technology
(Honours) – Software Engineering
2026 – Present

UNIVERSITY OF SOUTH AFRICA

Bachelor of Science in Informatics
2021 - 2025

UMUZI ACADEMY

National Certificate in IT (Systems
Development)
2019-2020

SKILLS

TECHNICAL

- JavaScript
- React
- Node.js
- Angular
- HTML5
- CSS3
- Python
- Git
- MySQL

PROFESSIONAL

- Project Management
- Agile Methodologies
- Problem Solving
- Critical Thinking
- Leadership
- Facilitation
- Communication

ABOUT ME

I am an Informatics graduate with a passion for digital innovation, problem-solving, and designing technology that creates meaningful impact.

Currently pursuing a Bachelor of Information Technology (Honours) in Software Engineering at Eduvos, I enjoy solving complex problems, learning emerging technologies, and collaborating with diverse teams to deliver user-centred digital solutions.

WORK EXPERIENCE

CODING & ROBOTICS EDUCATOR

Mitra Academy (2023 - 2024)

- I taught the fundamentals of robotics and programming using creative, age-appropriate learning tools to primary school learners.
- Designed interactive lessons that fostered curiosity, collaboration, and confidence in technology.
- Encouraged early exposure to STEM and problem-solving skills among young learners.

WEB DEVELOPER FACILITATOR

Umuzi Academy (2021 - 2024)

- Taught modern coding frameworks across both front-end and back-end technologies, with a strong emphasis on algorithmic problem-solving and programming fundamentals.
- Additionally, contributed to enhancing the company's open-learning web application by implementing feature improvements and optimising performance.

JUNIOR WEB DEVELOPER INTERNSHIP

Investec (2020)

- Supported migration of the bank's digital platform from legacy codebases to a modern framework (Angular).
- Improved platform performance, scalability, and user experience during the transition process.

PROJECTS

BCG PLATINION GLOBAL HACKATHON (2025)

- Collaborated with consultants and software developers during a global consulting hackathon.
- Developed an AI-powered education platform encouraging responsible AI usage and critical thinking.
- Designed and implemented the front-end interface and integrated application data.
- Worked within multidisciplinary teams under strict delivery timelines.

VOLUNTEER WORK

ETSOSENG FOUNDATION

Project Manager in Social Development Projects.

2024 – Present (Part-time)

- Coordinate and support girls' leadership programmes promoting education, confidence and personal development. One of the ongoing activities are mentoring programmes for grade 7 girls in St. Matthews school, in Soweto.
- Coordinated a partnership resulting in the planting of 600 trees in Soweto.
